

CASE STUDY

The Digital Front Door of a High-Performance Production Studio

How MODO Powered Seamless Access, Wayfinding, and Facility Services

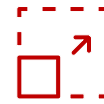

One centralized studio resource

Frictionless facility navigation

Streamlined production requests

Built for scalable integrations

Business Challenge

- Navigating a multi-level production facility
- Consistency across production teams, vendors, and external partners
- Facility requests and issue reporting handled manually via email
- Disconnected information about studio services, contacts, and availability

Solution

- A single digital hub to streamline studio operations and improve coordination for large production teams
- Reduced operational friction by simplifying parking, stage requests, and facility issue reporting
- Enhanced tenant and guest experience with real-time updates and intuitive navigation across a sprawling, multi-level campus
- Scalable platform to support future integrations and secure access needs for a high-performance, 21st-century production facility
