

Simplify Collaboration with Space Booking and My Circle in Your Workplace App

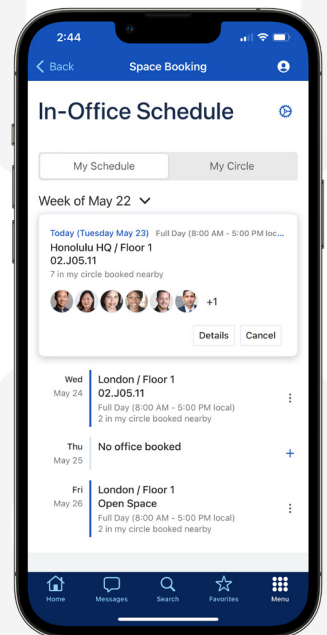

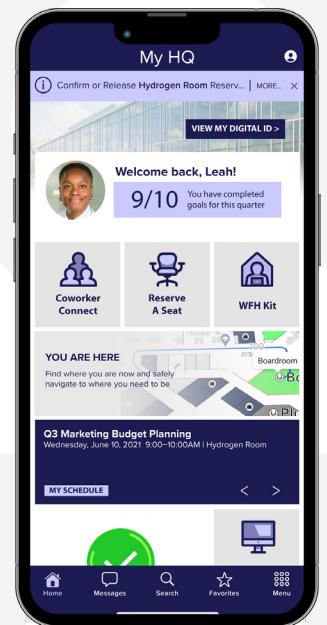

Make it easy for people to coordinate on-site visits, find each other in the office, and collaborate in a silo-free, hybrid environment.

Give your hybrid employee the freedom to choose when they come to the office, coordinate schedules with colleagues, locate collaborators on-site, and get access to everything they need to be successful, all from their unified workplace app.

Modo's industry-leading Space Booking solution streamlines and coordinates desk and attendance reservations using preset preferences and favorite spaces across multiple locations, allowing employees to book in seconds. It automatically releases no-show bookings to optimize available real estate, and enables facility managers to see exactly which spaces need attention first.

Modo's My Circle solution amplifies Space Booking by enabling employees to schedule time in sync with their teammates, maximizing in-office productivity. Employees can even book spaces near their colleagues, or switch existing reservations to align with a team's changing plans.

Modo customers are using Space Booking and My Circle globally, collectively enabling hundreds of thousands of employees to book desks and collaboration spaces across the world.

Give your workforce powerful tools to drive employee collaboration and productivity

Empower employees to come to the office while meeting their need for speed and flexibility

With Modo's Space Booking solution, employees can:

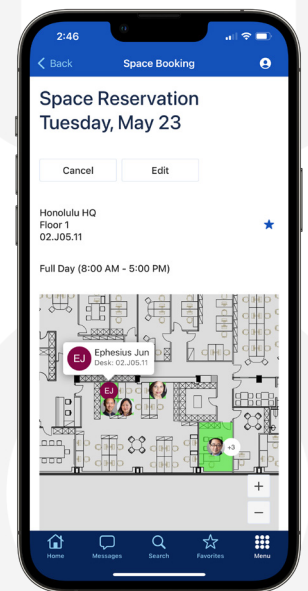

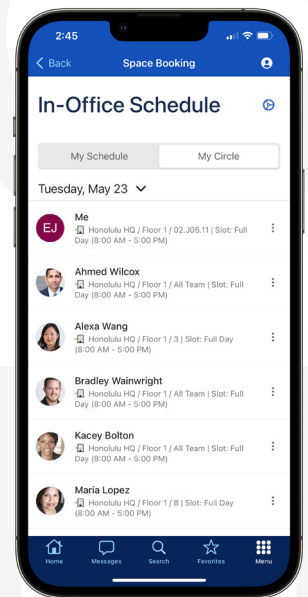

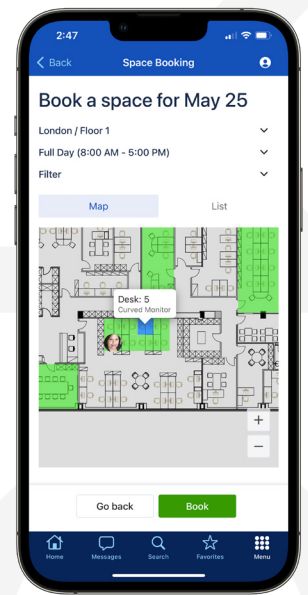

- Reserve favorite spaces with a single tap; book anywhere in under a minute
- Plan ahead with advanced booking up to five weeks
- Book a space for the day, or select a company-defined time slot
- Quickly switch locations to book spaces while traveling to another office
- Edit, extend, and cancel reservations
- Receive reminders to check in for scheduled reservations, or when availability of a reserved space changes

Supercharge Space Booking with My Circle to maximize productivity

- Use My Circle to view colleagues' in-office schedule and booking locations
- Book spaces at the same location and days as colleagues
- Adjust reservations to align with team planning

Easily customize the app to meet company needs and hybrid work policies

- Add and remove locations, floors, neighborhoods, and spaces in minutes, all with zero code
- Manage settings such as weekday availability, reminder notification timing, and time slots
- Delegate management of each location
- Enable assistants and proxies to book on behalf of others
- Quickly get space reservation data to gain insights into booking trends such as usage over time, frequency by team or department, and which reserved spaces are going unused

Elevate the Space Booking experience with My Circle

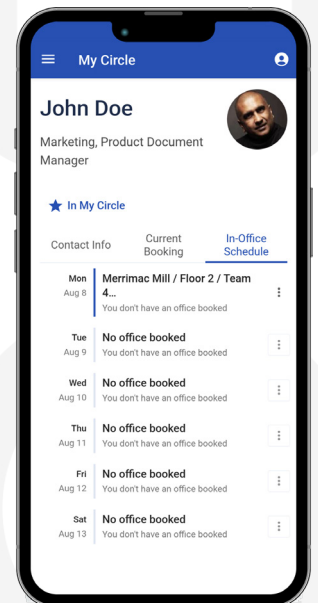

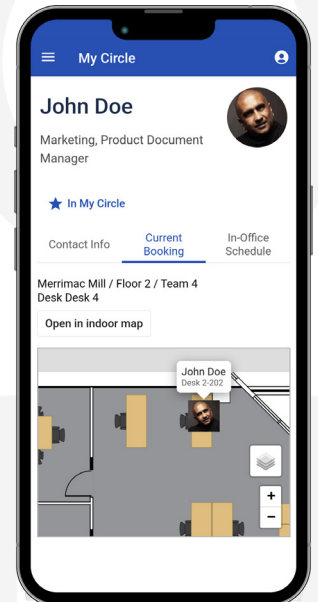

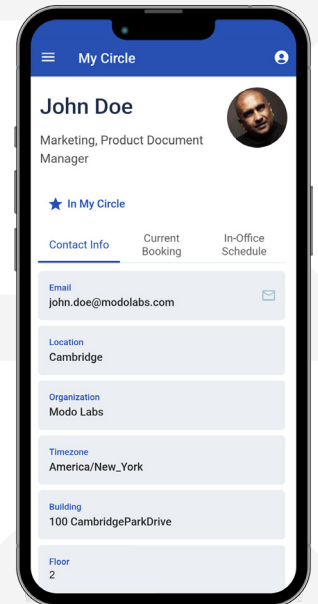

Foster collaboration, connection, and engagement

Modo's My Circle solution enables employees to:

- View their Circle for quick access to their most frequent collaborators
- View a list of additional colleagues suggested by the company
- Add or remove individual colleagues to their Circle with one tap
- See information about a colleague such as their photo, full name, job title, contact information, days scheduled in the office, attendance plans, and space reservations
- See their team's collective attendance plans, so employees know when to book for maximum productivity with colleagues
- View the in-office schedule of colleagues, their current booking, and the booking location on a floor plan (*requires Space Booking and Indoor Maps*)
- Opt out of sharing their attendance plans and reservations to colleagues
- Search the company's entire directory to find colleagues by name or email
- Deep-link into Slack to continue conversations with colleagues

Manage and update your employees' directory and their Circles through a robust, secure, and field-tested API

- Populate and manage your employee directory to use for other purposes, such as personalizing content on your app and sending notifications
- View and update user information (such as their photo, full name, job title, contact information and more)
- Retrieve colleagues added to a user's Circle
- Add or remove colleagues from employees' Circles
- Populate and manage an employee's list of suggested colleagues
- Determine your employees' search experience by configuring which attributes/profile fields to search by

Go beyond Space Booking and My Circle with immersive, integrated experiences that help employees connect, collaborate, and be productive while maintaining health and wellness standards.
