

# Support, Engage, and Inspire Your Workforce, Wherever They Are

With various work models at play, it's more important than ever you ensure your employees feel supported, engaged, and inspired. Future-looking companies are evolving their cultures, focusing on their people, and using workplace apps to transform the employee experience.

## A Digital Engagement Platform Built for a People-Centric Workplace

Modo Workplace is a powerful employee engagement platform for creating a **robust, unified, cross-device workplace app**. Quickly integrate enterprise systems, engaging features, personalized content, and more into a completely customizable company app. Out-of-the-box integrations and low-code UI accelerate development and simplify maintenance.

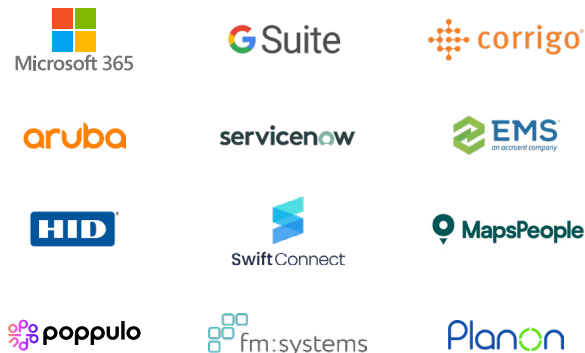

Here are a few of the global brands powering their workplace with Modo:

## Modo's Comprehensive Digital Engagement Platform

### Pre-Built Integrations

Near-unlimited, seamless integration opportunities with virtually any data source and web app. Meet any complex need with our productized integrations and native SDKs. Build customized experiences using XModule and XComponents. Here are a few of the many out-of-the-box integrations we offer:

### Out-of-the-Box Tools

Starter kits, launch plans, design templates, and sample code are readily available to help you build and evolve your workplace app.

### Low-Code Development

No technical skills required. Our app-building UI simplifies development and enables stakeholders, such as HR and MARCOM, to assist with content development.

### Enterprise-Grade Security

Hosted by AWS, our platform is SOC2 Type II certified, GDPR compliant and all data in transit and at rest is fully encrypted.

### Single, Scalable Solution

Build and deploy one custom app. Updates are instant across all systems and devices. Easily scale your app to multiple locations and hundreds of thousands of users.

### Best-in-Class Support

Our team of digital experts is available 24/7 to ensure your app is a success. Tap our extended community of enterprise users for ideas and insights as you build your app.
