

Seamless Deployment for Your Workplace App

Confidently Launch with MODO's Proven Approach for the Enterprise

Deploying a workplace app is a significant investment, and we know our customers want to get it right. With MODO, you're not alone—we bring deep expertise, a structured process, and a dedicated team to ensure a smooth, successful rollout that delivers value fast.

Why MODO? Our Proven Track Record

400+ successful deployments

10M+ users worldwide trust MODO-powered apps

100+ countries serving users across enterprise workplaces

The Key to a Successful App Rollout

A well-executed deployment drives user adoption, ensures security, and sets the foundation for long-term success. Our approach gets your app into users' hands quickly, with the flexibility to grow and evolve with your organization's needs.

Our Deployment Process: From Kickoff to Success

We follow a structured, phased rollout with a **90-day commitment** to delivering first value, ensuring a smooth and strategic app launch.

Phase 1: Create & Deploy

Pilot App: *First Value in 90 Days or Less*

- Discovery, Prioritization & Planning
- Light-weight, Custom Branded App Build
- Pilot Launch & User Engagement

Phase 2: Elevate & Expand

Production Ready App: *Enterprise Roll out in 6 Months*

- Advanced Modules with Complex Configurations
- API based Integrations with Enterprise Systems & Tools
- Robust Roll Out Strategy driven Enterprise-wide Scaling

Phase 3 & Beyond: Engage & Evolve

App Adoption & Growth: *Ongoing, Post Go Live*

- Tailored UX via our Powerful Low-Code Platform
- Dedicated Support & Alignment with our Product Roadmap
- Long Term Success with MODO's Expertise & Partner Ecosystem

Building Your Deployment Dream Team

A successful app deployment starts with the right team. Based on hundreds of implementations, we recommend key stakeholders to ensure a smooth, efficient process. While every organization is unique, these roles are essential:

Recommended Roles/ Client Team Structure:

-  **Product Manager**
Defines the app vision, roadmap, and overall goals
-  **Project Manager**
Coordinates timelines, aligns stakeholders, and manages progress
-  **Content Owners**
Create and maintain app content, ensuring accuracy and relevance
-  **IT & Security Teams**
Handle authentication, integrations, and mobile distribution
-  **UX Designers**
Develop branding, layouts, and user experience elements
-  **QA Testers & Power Users**
Test functionality and provide critical feedback before launch

“The Go Live team was instrumental in delivering the new site page for our HQ launch, despite a lot of back and forth and last minute changes, all of which they took in their stride. We are excited to showcase the new app to our associates and look forward to kicking off the next phase soon.”

A leading retirement and wealth management firm

Each implementation is flexible, and the exact team structure may vary based on your organization’s needs. Our **Go-Live Team** will work closely with you to tailor the process, ensuring you have the right resources in place for a seamless and successful rollout

Get Started in Just 3 Steps

1

Meet Your Dream Team
